

MORE VALID REASONS OR EXCUSES

COLLEGIATE SCHOLASTIC MENTORING© INITIATIVE

WHY SOME SAY THEY ARE NOT CURRENTLY ENROLLED AT AN ACCREDITED UNIVERSITY

Do not know

None of anyone's business

Do not want to be away from child(ren)

Have lots of children/Raising my babies/Balancing children, a full-time position, and school were too difficult

Have to payoff prior student loans

Need to transfer to another university

Have already obtained my education in another country (India)

Language barrier (have to learn English better)

I am presently in high school

Have been out of school [high school] for so long [10 years], do not have any interest

College is not for everyone

Do not want to be tied down for 3 years

Time management

Laziness and not making time

Have to pray about whether I should enroll

I am retired

Started but dropped because that was the field that my parents wanted, and now I am undecided on a major and stopped to obtain employment

Want to work in the profession (teaching) for a while to ensure that is what I desire to do.

Note. Although the United States is experiencing an economic downturn, *lack of finance* was only indicated three times.
