

BRIGETTE'S INTRODUCES
VISIONARY MENTORSHIP

VISIONARY MENTORSHIP

The New Era of Academic Mentoring

On this Historic Day, Brigette's Technology Consulting and Research Firm, is proud to launch, *Visionary Mentorship*. This initiative will inspire Graduate-level Academic Mentors to promote research addressing global concerns and Graduate Learners to conduct research that may possibly improve the current educational, economic, environmental, political, and social situations.

We encourage all Graduate-level Academic Mentors to visit the following link, <http://www.brigettes.com/VM/VisionaryMentorship.htm>, read the press release, download the forms, and forward the link to other Graduate-level Academic Mentors.

Instructions are as follows:

Forms: Academic Mentors are to purchase a notebook, complete the form using a felt-tip pen, fax or mail the completed form to the Graduate Learner, and file the form in the notebook after obtaining signature.

VM-Blog: Encourage Graduate Learners to share their views: Learners are to establish a Goggle account, click on "comments," and share his or her answers to the question(s).

As this initiative progresses, updates will be announced on the VM You Tube. As America makes a new transition, all Graduate-level Academic Mentors can participate in this initiative and claim the designation:
